## Who Are We?

LET'S GO creates economic success for underserved communities through STEM education. We partner with schools and community organizations to deliver engaging K-12 through workforce programs that build critical thinking, problem-solving, and teamwork skills while ensuring underrepresented students feel they belong in STEM.

## What is TSC?

The LET'S GO Teen Science Café Program develops teen leadership by connecting youth with adults and local STEM experts. Through collaborative presentations and hands-on activities, the cafés foster STEM discovery and learning while building community relationships.
